## PHOTO-BOOK PROJECT BOARD

### » HOW TO USE THIS PROJECT BOARD

1. Decide what type of photo book you want to create. Fill in the Snapshot and Audience sections of the project board.
2. Explore the types of photo books and designs offered on photo service websites. Make notes in the Services section.
3. Sketch plans for text and images in the Storyboard Layout section.

SERVICE	
POSSIBLE WEBSITES	DESIGN AND COST
1.	
2.	
3.	
AUDIENCE	
Details about your audience	

### **Photo-Book Tips**

- ❖ As you evaluate online photo-book services, consider your ideas from the Snapshot section. Consider the design/theme styles, book styles, and number of pages allowed.
- ❖ Keep in mind your audience's age, gender, interests, personality, and any known likes and dislikes. This will help you choose the appropriate design, photos, and text for your book.
- ❖ Before you begin your project, save JPG copies of the images in a folder on your computer desktop for easy access and uploading.
